-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 9 and 10 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 10-18-2005.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2, 5-7, 11-12 and 16-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Collura et al. (3,847,282). Collura '282 discloses a hanger, comprising a substrate having first and second portions (32 & 11) and first and second interior portions (31 & 26), said first end portion being folded relative to said first interior portion, said second end portion being folded relative to said second interior portion, said first and second interior portions being foldable relative to one another. See Figures 1-5 embodiments.

With respect to claim 2, note openings see figure 2 embodiment and column 1, lines 45-49 and column 3 lines 1-9.

With respect to claims 6 and 17, note slots A in Figure 1 embodiment.

With respect to claim 7, note the adhesive layer (glue patch GP) in Figure 2 embodiment.

Art Unit: 3728

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Vrana (3,658,175). Verna '175 discloses a hanger, comprising a substrate having first and second portions (24 & 23) and first and second interior portions (27 & 28), said first end portion being folded relative to said first interior portion, said second end portion being folded relative to said second interior portion, said first and second interior portions being foldable relative to one another. See Figures 1-3 embodiments.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Collura '282. Official Notice is taken that it is old and conventional to provide adhesive layers on surfaces of a substrate for better bonding the parts. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to Collura '282 with this know fastening means as a matter of using know bonding principles.

Allowable Subject Matter

7. Claims 3-4 and 13-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Shown are hangers analogous to applicant's instant invention.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jila M. Mohandesi whose telephone number is (571) 272-4558. The examiner can normally be reached on Monday-Friday 7:30-4:00 (EST).
